Features

For daily use in all applications. For weighing heavy loads quickly and efficiently.

Design

- > Fully electronic floor scale in sturdy, generously sized steel tube construction for tough industrial applications
- > High overload protection and maintenance-free construction
- > Direct force transfer to 4 strain gauge load cells
- > Ultra flat design from 80mm installation height
- > Suitable for installation flush in the floor or as free-standing unit
- > Measuring cable 6m long, also optional plug-in connection
- > Standard two-range scale with 2 x 3000e, approvable to Class III commercial scales

Indicators

Floor scales are combinable with all Soehnle Professional indicators. Choose the best indicator for your application. The indicators are listed in our catalogue.

Explosion hazard zones

On request, we can also supply weighing platforms 2816, 2817, 2818 and 2822 for use in explosion hazard zones. The weighing platforms may be used in Ex zones 2 and 22, Category 3 G and 3 D, in compliance with EU Directive 94/9/EC (ATX 100 a).
